A Family's Dream

Originally from the UK, the Holdsworth family planted themselves in Whistler and were inspired to create a place where families could gather, connect, and experience both luxury and nature. Dan Holdsworth, his wife Keltie, and his sister-in-law Anna worked together to design and build the Wedge Mountain Lodge & Spa both inside and out. From the floor-to-ceiling plant wall in the spa that plays homage to Keltie's childhood home, to the locally made tables in the dining room that mimic the area, their attention to detail blends luxe accommodations with the natural beauty of the surrounding mountains. Set in the renowned destination offering year-round activities for all ages and interests, the lodge provides the perfect place for families to create lasting memories - exactly as the Holdsworth family had hoped.
